---

Hi Jack and Lester - some info from our conversation today -

Kurt Carpenter - [kdcar@usgs.gov](mailto:kdcar@usgs.gov) working with a bunch of partners monitoring HABs in Oregon. If you can mention that the CyAN app is now public, he would be interested in that.

- Lake Washington story - King County website - <https://www.kingcounty.gov/services/environment/water-and-land/lakes/lakes-of-king-county/lake-washington/lake-washington-story.aspx> and there are tons of pubs and reports, e.g., <https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0110363> (and cited therein).
- Lake Spokane example - <https://www.tandfonline.com/doi/full/10.1080/10402381.2015.1040566>

WA HABs website (includes archive): - <https://www.nwtoxicalgae.org/>

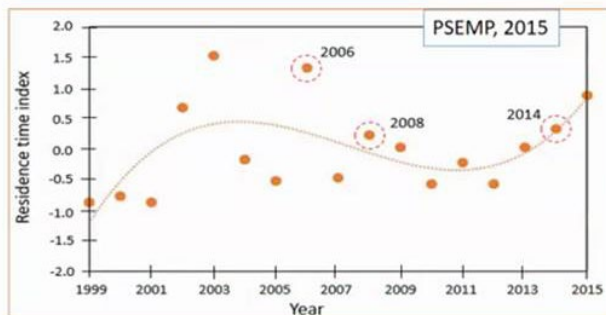

OR HABs website (includes archive):

<https://www.oregon.gov/oha/PH/HEALTHYENVIRONMENTS/RECREATION/HARMFULALGAEBLOOMS/Pages/Blue-GreenAlgaeAdvisories.aspx>

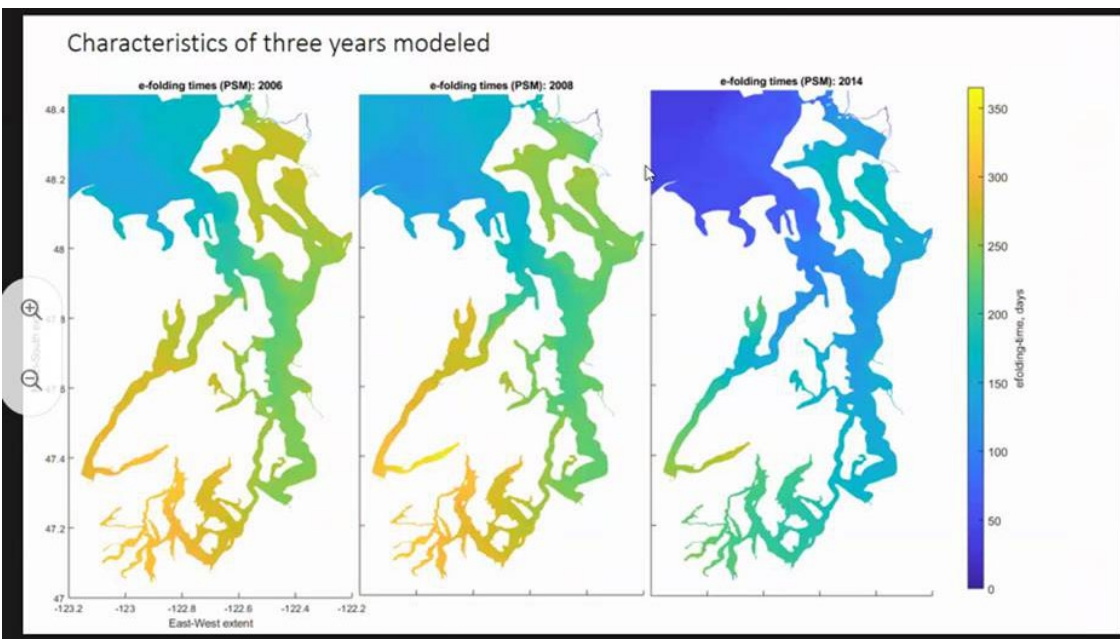

ID HABs website (no archive): <http://www.deq.idaho.gov/water-quality/surface-water/recreation-health-advisories/>

Puget Sound Nutrients webinar - some screenshots from their presentation just FYI

Characteristics of three years modeled

Above is example interannual variability in residence time

Above is e-folding time for inert tracer from Salish Sea numerical model

Above is example improvement for a PS basin
